

# Hamilton Daydream

## Sponsorship Prospectus

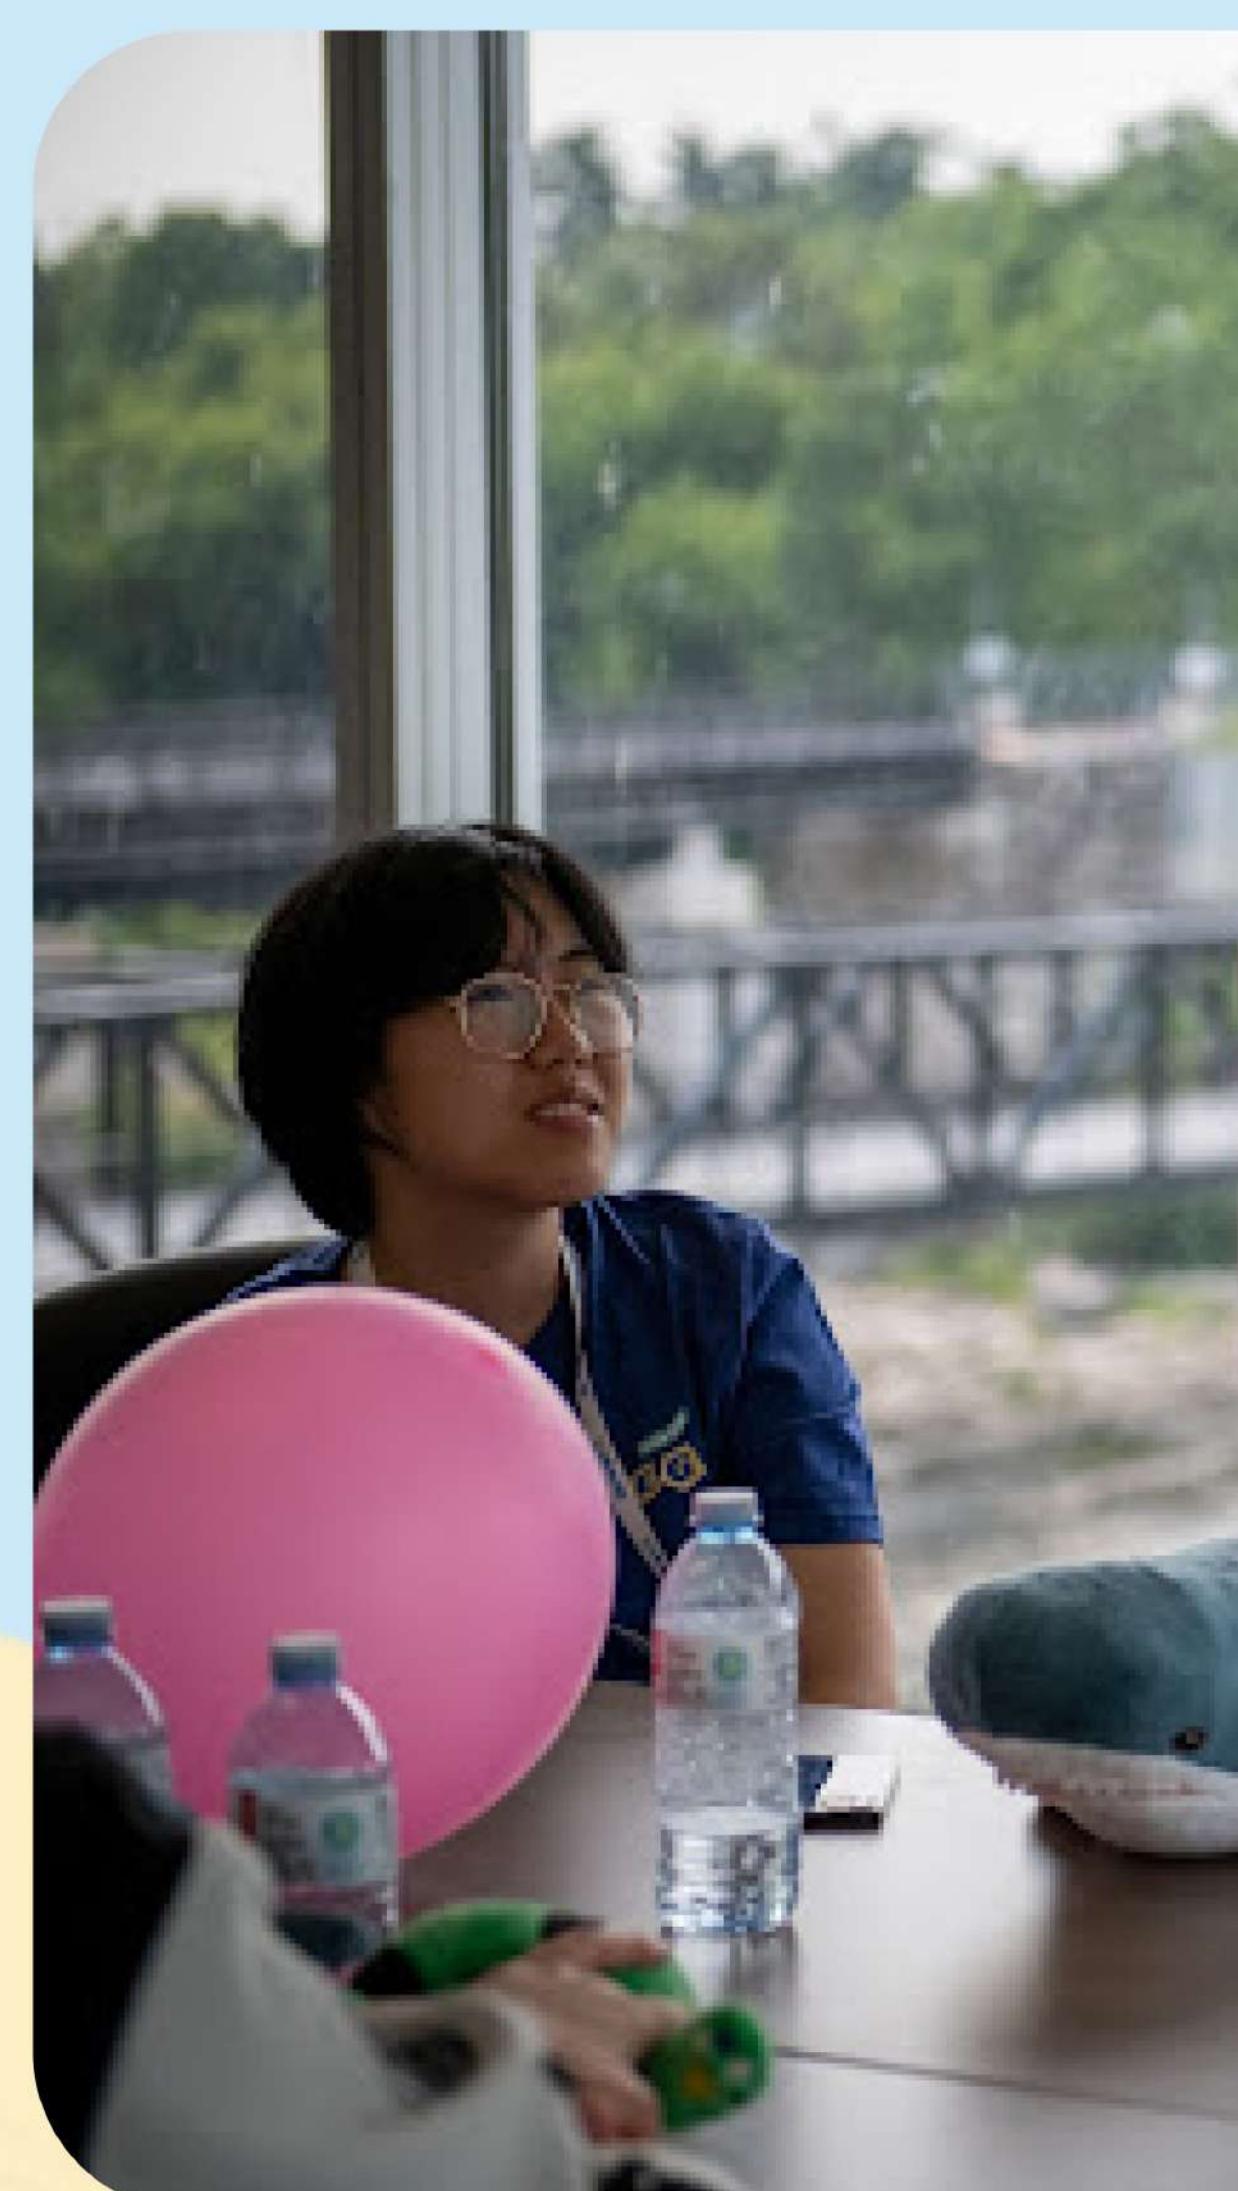

### What is Daydream?

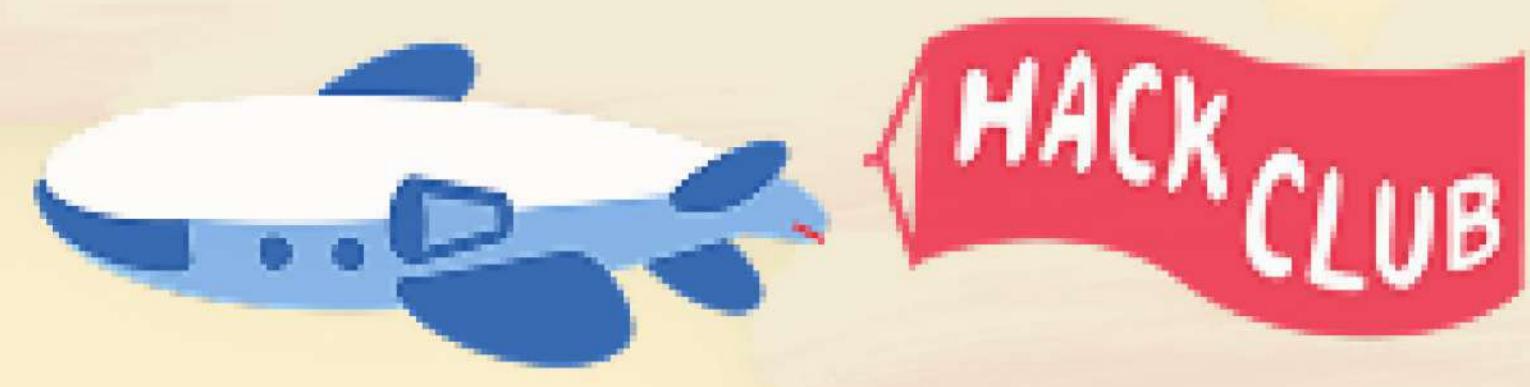

Daydream is a global game jam hackathon organized by high schoolers. Distributed events are running in 100+ cities worldwide on the weekend of [September 27](#). Some other Daydream events are happening in Toronto, Silicon Valley, Washington DC, Boston, Bengaluru, Dubai, Hanoi, and more! It's organized by Hack Club, a non-profit of more than 60,000 teenagers across the world with a goal of making software, hardware or anything engineering-related!

### What is a hackathon?

Hackathons are usually described as coding events where participants build coding projects; they usually have a theme and a niche. But as Zach Latta (founder of Hack Club) describes it, “they’re a vibe”. Hackathons aren’t just about the projects you build, they’re about the lifelong friendships you make, the songs you sing along to, the all-nighters you pull trying to fix that one bug. They can be life-changing and could be the start of a new passion. They’re also a place where you can build something that you’re truly proud of. A game jam is basically a hackathon, but specifically for making games!

# What is Hack Club?

Hack Club is a non-profit organization run by over 60,000 teenagers across the world. Every day, thousands of Hackclubbers get together to make things they're truly passionate about. Hack Club supports 400 clubs around the world (in partnership with FIRST Robotics teams), as well as many hackathons! Through the summer of 2025, they ran Highway, a grant program that provided up to \$350 for a hardware project that Hackclubbers designed, ultimately participating in Undercity, a hardware hackathon in San Francisco!

## Why should **YOU** support us?

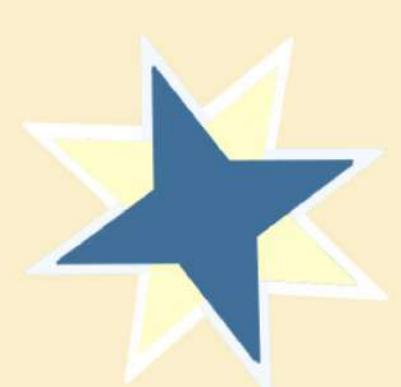

Daydream means a lot to us, and we need support from sponsors like you to make it happen. Your support will help us host Hamilton's largest hackathon yet, creating meaningful opportunities and a low stakes environment for inspiration to form.

We have 501(c)(3) status (EIN: 81-2908499) from our fiscal sponsor and incubator, The Hack Foundation (d.b.a. Hack Club). Interested in sponsoring? See the table on the last page for more information on what perks you'll receive.

# What will your funds be used for:

- Food, drinks, and snacks for participants
- Stickers, cards, and other merch for participants to keep
- Prizes for exceptional projects
- Cleaning, security, and other fees
- Other costs associated with hosting the event

And most importantly: creating the BEST EXPERIENCE EVER

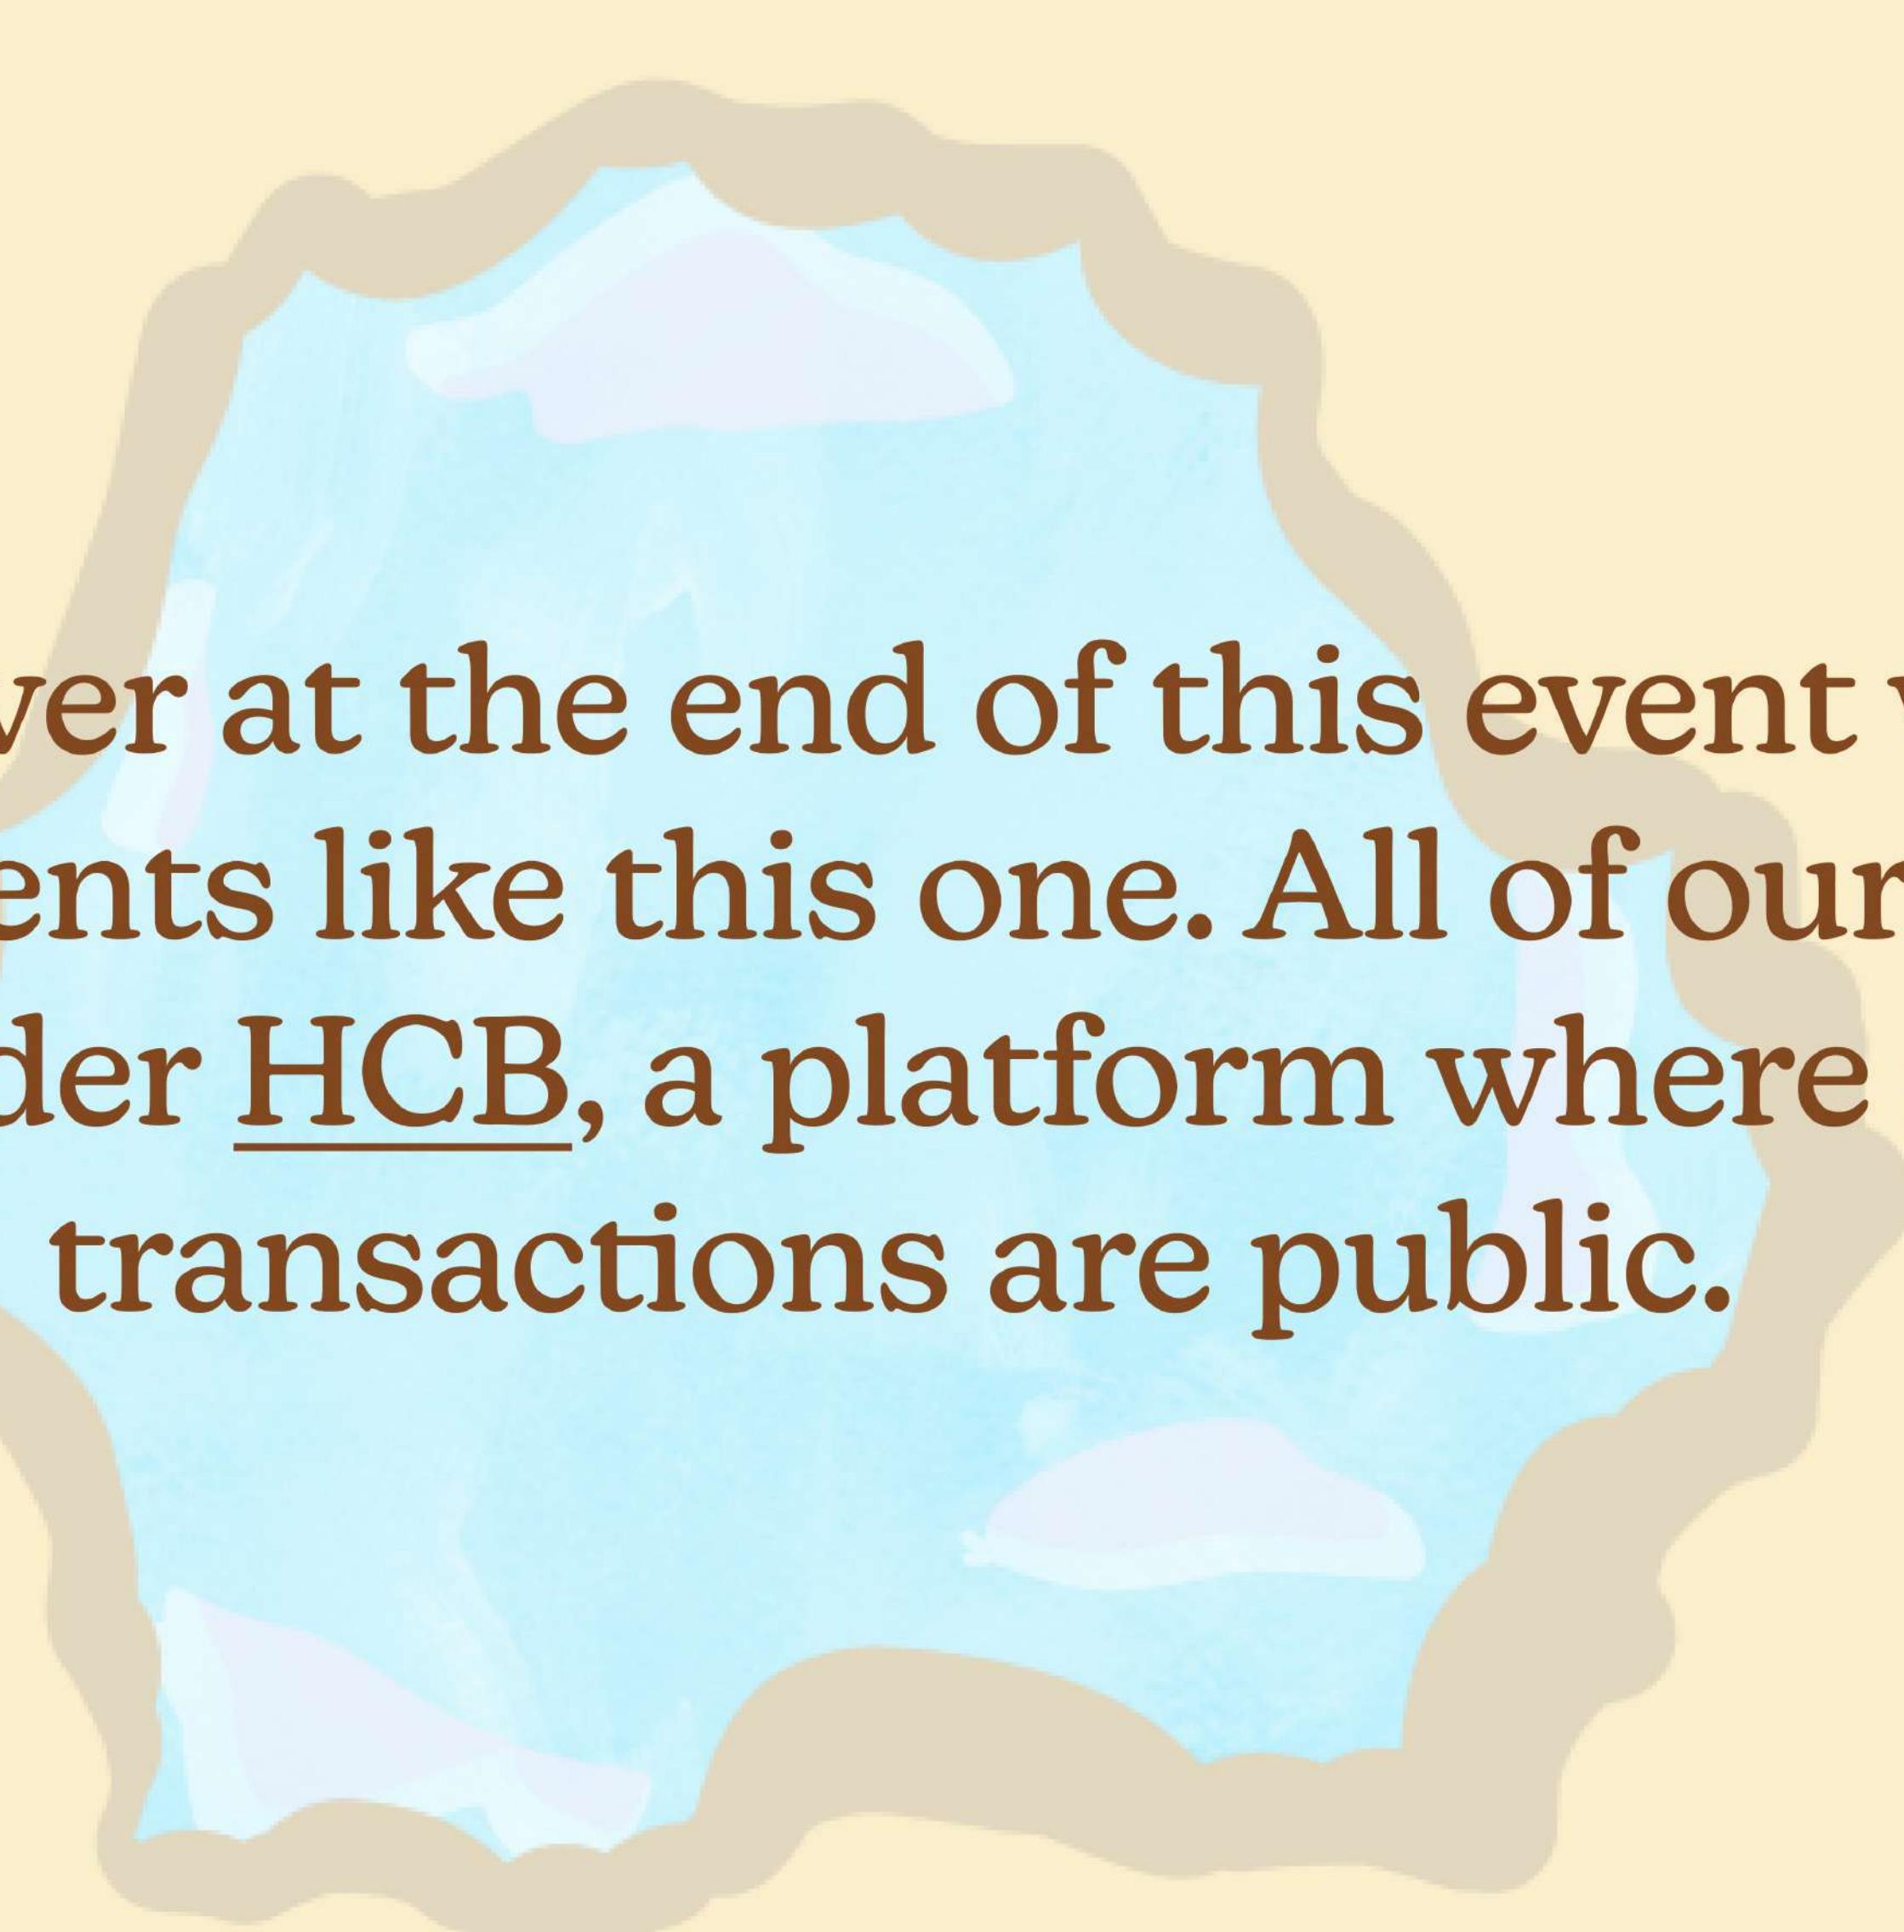

## There are other ways you can support us by providing:

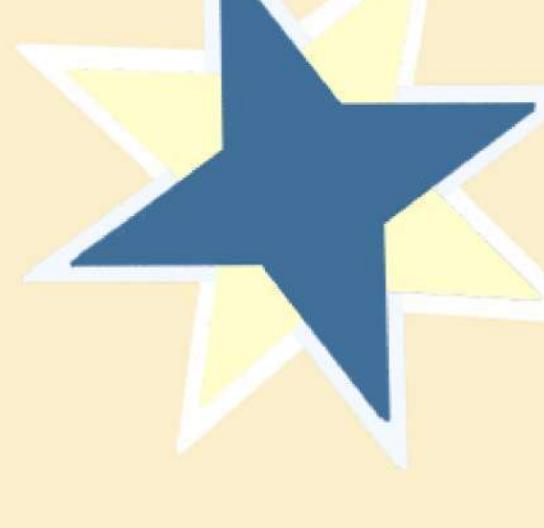

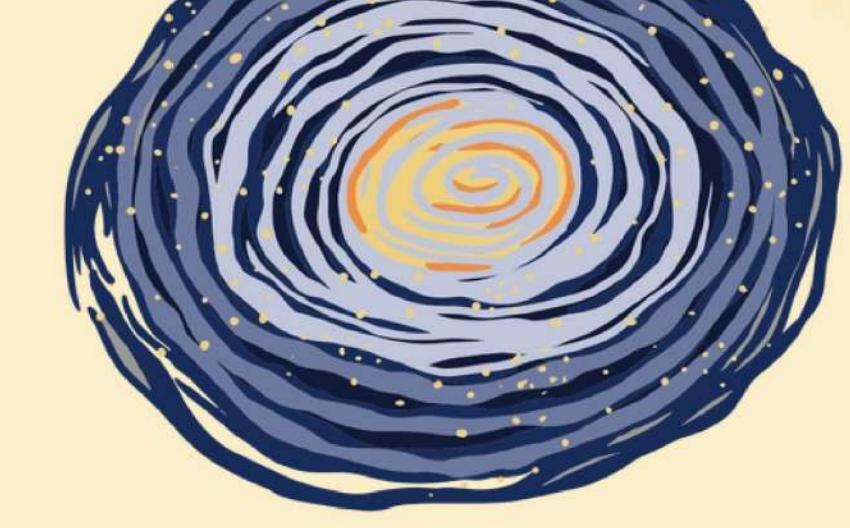

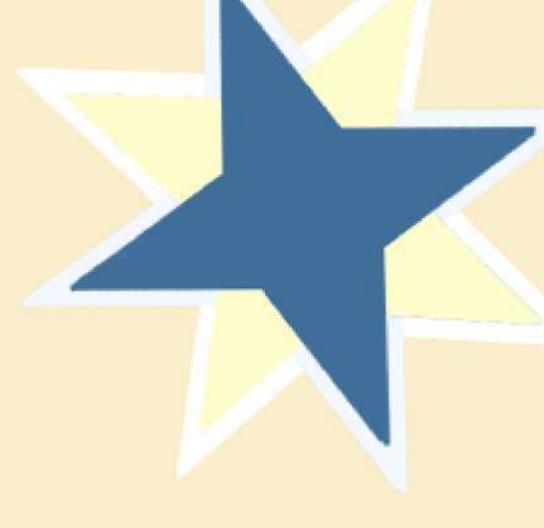

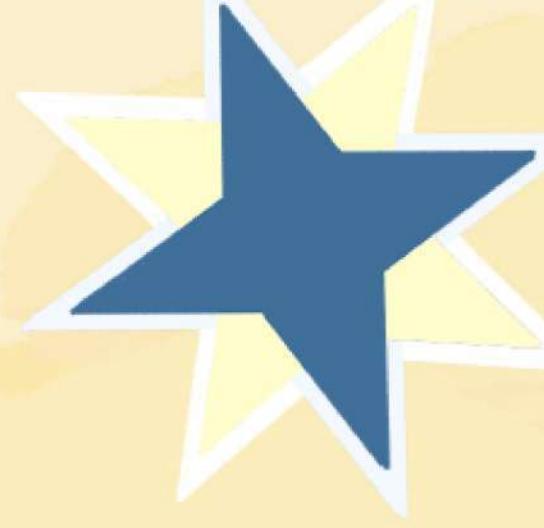

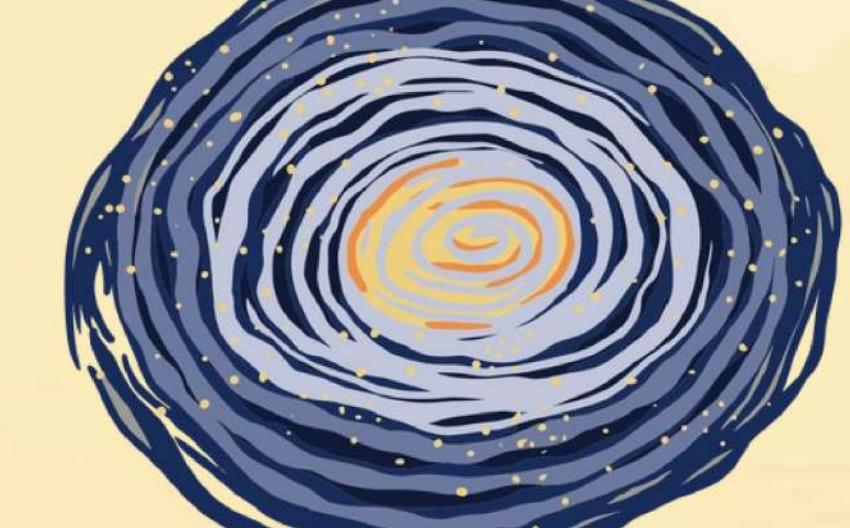

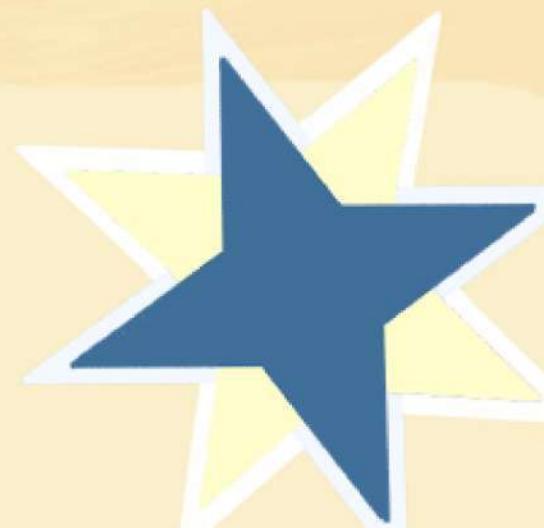

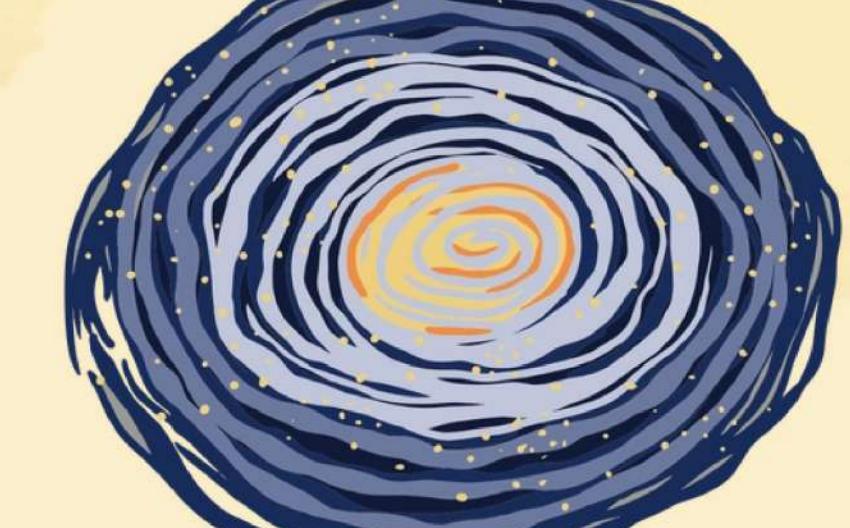

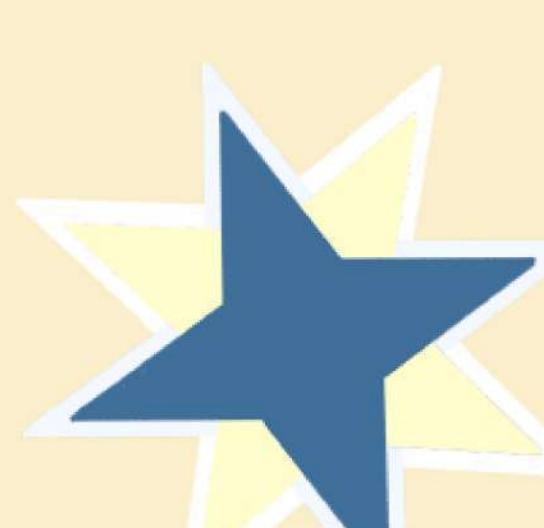

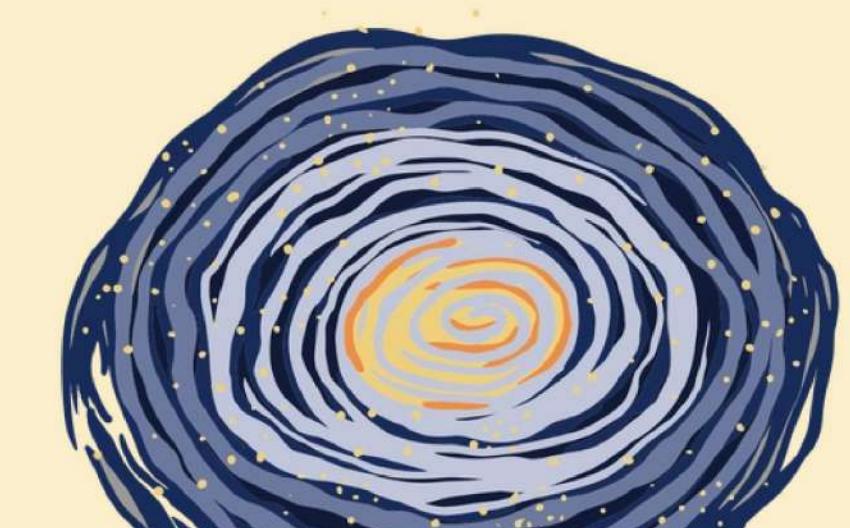

- Mentors/Volunteers providing guidance to participants
- Providing hardware (e.g. Arduino Boards) or other goodies
- Shout out on social media

Venue and event spaces

Any funds leftover at the end of this event will be used to host future events like this one. All of our finances are hosted under HCB, a platform where all of our transactions are public.
